## *Welcome!*

We would like to welcome everyone to our “Designed Genetics” Red Angus sale. It is with mixed emotions that we are selling these cows, but change is always inevitable. With everything considered in business and family it is time to cut back the size of our herd.

After being involved in the purebred business for over 30 years, fourteen years ago we decided to go with Red Angus. The choice was based on the ability of the breed to thrive in the hot temperatures of the south, moderately cold winters and a bounty of fescue pastureland. We think it was a wise choice and our offering shows the results.

Our herd was built on the genetics of bulls like Hobo 1961, Glacier Logan 210, and Beckton Warrior N645 T1, bulls that work in our environment. We then added Beckton Julian B571 and Feddes Direct Nors 7130. These genetics meet the criteria (fertility, performance and carcass merit) we set to continue the progress of this herd. We have also been diligent in building cow families. You will find several full sisters in our offering. These same genetics are also the foundation of the Gordon Beef herd.

Because of our business, Designer Genes Technologies, Inc which is an ultrasound software development company, we have a different in-site than most. We have utilized this herd in the development of the software “Beef Image Analysis” for Ribeye, Fat Thickness and Marbling deposition. Ultrasound is one of the tools we use to select replacement heifers and herd bulls.

At this time, to move forward with these same type of genetics, we have selected SSRK Ground Pounder Y114, a son of P707, for his phenotype, performance, and exceptionally high carcass measurements. He meets and exceeds all of our criteria for carcass traits in a herd sire. We are selling a limited number of semen packages for the first year, to be available sale day.

We want to especially thank Ronnie Glover for his help in pulling this sale together and for the use of his facilities and his great hospitality. Come enjoy yourself and share in our proven genetics for the future of the Red Angus breed.

Thanks for coming!

### Welcome to the Designed Genetics Sale!

Every year, I get calls wondering when I will be having a Complete Dispersal Auction – well, here it is for 2012. The Gordon Beef program is selling in its entirety, and the King Farm is offering a vast majority of their Red Angus females and certainly their entire top end. These herds complement each other well and most of the Gordon Beef females originated from the King Farm herd.

As you will see, this offering entails spring cow/calf pairs that will sell with productive calves at side, fall cow/calf pairs that will sell as splits and some outstanding open yearling heifers ready to breed into your program's schedule and genetics. The cattle are 100% fescue adapted and should thrive wherever their future destination may be.

The cows in these herds are moderately sized, highly efficient animals with excellent fertility. In the current environment of high input feed costs, these females may be as productive as any Red Angus females on the market today. Last, and certainly not least, these cows have been scanned for carcass traits for years. Rethel King has literally written the book on scanning and holds license agreements not only with many beef breeds, but in the swine and poultry industry as well. If you are in search of Red Angus cattle with exceptional Ribeye and Marbling traits, mark your calendar for April 28th in Elgin, Oklahoma.

If you cannot attend the auction, please feel free to contact myself, Joel Birdwell, any of the ringmen listed or you may watch and bid online at: [DVAuction.com](http://DVAuction.com). We would be happy to assist you with any of your purchasing decisions and would carry your bids with complete confidence.

Get ready for the greatest Complete Dispersal of the 2012 season! I look forward to seeing you in Elgin, Oklahoma April 27th and 28th.

Best Regards,

*Kyle Gilchrist*

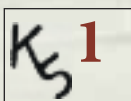

Kyle Gilchrist, sale manager

Sells with Bull Calf, Reg. #1483846, calved 3/01/2012, sired by Beckton Nebula M045

JDW Cinnabar 22P is the feature cow of this entire event, posting a 109.7 MPPA and average progeny scans for IMF at 4.30 to ratio 103! Raised in the Waggoner Red Angus program of Oklahoma, she was in the Vess Cattle Co. showstring before joining the King Farms Red Angus herd and making a major impact on their program.

Her bull calf at side by Beckton Nebula M045 makes him a **paternal brother to the legendary Beckton Nebula P P707**. The value in this cow/calf pair can only be measured by the future breeding potential in her promising young bull calf at side and her worth as a Donor Matron in any progressive Red Angus breeding program.

JDW Cinnabar 22P is also the dam to Reference Sire A – KF Stellar Julian 709, Reference Sire B – KF Julian Encore 708 and Reference Sire E – KF REd Magic 707 and a daughter sells as Lot 1A and a son sells as Lot 1B.

The world is constantly in search of the breed changers... **JDW Cinnabar 22P** and her outstanding bull calf selling at side certainly are breed changers. The question is... will she be in your Red Angus Donor program after April 28th?

Sells with Bull Calf, Reg. #1484803, calved 3/26/2012, sired by THIS R82 OF 153 WARRIOR. A direct daughter of Julian B571, the amazing bull that brings together more economically relevant traits than any other and ranks in the top 1% CED, 3% BW, 6% ME, 16% HPG, 2% CEM, 1% STAY, 27% MARB and 17% REA of the entire Red Angus breed! Maternally, MS Sarah Julian 705 comes from the most influential herd in the entire King Farms program -- JDW CINNABAR 22P! Opportunities of this magnitude certainly don't come along everyday -- make sure you are ready on sale day to put her into your program. Don't underestimate the herd bull prospect selling along side this great Red Angus female.

SPUR Ground Pounder Y114 is the P707 son everyone has been searching for in the Red Angus breed. Take advantage of this limited semen offering and don't miss an opportunity to be a genetic edge leader!

This is a bull that combines calving ease, maternal ability and muscle with an impressive phenotype. His 16 CED and -4.7 BW rank him in the top 1% and 2% for those traits respectively. Then a respectable milk number combined with a top 1% ME and again he presents a respectable genetic tabulation. Perhaps most impressive is the ultrasound readings on Ground Pounder. He posted on 3/13/2012 weight of 1210 with an REA of 15.41, Fat Thickness of 0.23, REA/CWT 1.27, and Percent IM Fat 5.06. His ability to unite calving ease, muscle, soundness and phenotype make Ground Pounder a true genetic opportunity.

Beckton Nebula P P707

From the time-tested Beckton program, both Ground Pounder's dam and sire create the opportunity for this bull to lead the way in traits that keep cattlemen in business. His dam brings four generations of MPPA over a 100 to his pedigree and his sire, P707, need little introduction. P707, now deceased, is the proven Nebula son that maintains calving ease, a correct maturity pattern and performance in his progeny.

Ground Pounder was purchased from Silver Spur Ranch to continue the carcass genetics we strive for at King's Farm. Both Silver Spur Ranch and King's Farm have a strong confidence in this young sire.

Ground Pounder will be utilized heavily in the Silver Spur Ranch commercial and registered programs. Our confidence in this young sire is high and we invite you to join us, with King's Farm, to utilize this great young herd sire.

**When you research all of the P707 sons in the RAAA database, SPUR Ground Pounder Y114 ranks as the best scanning of any in the industry!**

Sells with Bull Calf, Reg. #1483831, calved 2/16/2012, sired by THIS R82 OF 153 WARRIOR. The next three females are all maternal sisters and come from the legendary Mattie cow family from the Bootjack Ranch of Montana. Mattie 9109 ranks in the top 9% of the breed for STAY, top 4% for YG and top 14% for REA. Note the double shot of Brown Vacation in her pedigree -- she should roll out the ribeye scans in her calves!

PE to KF Stellar Julian 709 (#1180389) from 11/24/2011 to 1/31/2012. Fall calving Red Angus females that are adapted to fescue are not always easy to find in the real world. In the Designed Genes auction, there are many of these great females ready to purchase April 28th. KF Ms Robin Hobo 413 brings a fall heifer calf to the auction for analyzation and comes with an individual IMF scan of 4.73!

PE to KF Julian Encore 708 (#1180388) from 11/24/2011 to 1/31/2012. As I have stated earlier, the King Farms program has focused on scan data for many years and several generations of Red Angus cattle. That fact continues to be evident with cows like KF Ms Wendy Chkee Canyon 507, who posts progeny averages of 4.52 IMF (ratio 113) and 10.78 REA !

Sells with Heifer Calf, calved 3/19/2012, sired by THIS SO56 of M208 Julian (#1244133). A first calf heifer with a heifer calf at side from the JLW Wendy cow family. She brings to the table a 103.6 MPPA and ranks in the top 20% of the breed for MILK and top 10% YG. What an offer here – a young female with a heifer at side and combining Logan 210 with the ever prevalent Hobo bloodlines.

HERD BULL ALERT !! This yearling has stud bull written all over him, coming from a Julian B571 daughter touting a 111.6 MPPA and 153 Warrior. He is DEEP made with lots of meat and muscle and offers stats in the top 3% WW, top 4% YW, top 4% TM, top 6% HPG and top 14% STAY. If you are in search of one of the top Red Angus bulls to sell this season, take a look at KF Robert Julian 134. **Selling full interest and full possession. Retaining 1/2 semen interest.**

## Sale Terms and Conditions...

**TERMS:** Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

**PURCHASER'S RISK:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**BIDDING:** Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

**CERTIFICATE OF REGISTRY:** A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

**HEALTH:** All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

**BREEDING GUARANTEE:** All animals are guaranteed by the seller as outlines in the Red Angus Association of America Code of Ethical Sale Practices.

**LIABILITIES:** All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

**CONTRACT:** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

**PHONE BIDS:** Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.
